

MONSTROUS

I, Thor, the Ultra Energy of the Universal All That Is, am with you on this day and in this mode of communication to assist you to **learn more about yourself**. You are perfect in every way for the learnings that you are completing. You are perfect, in your physical being that is indicating to you how you are feeling about yourself. You are perfect, in your presence of others because you have chosen to be with them. You are perfect, in your thoughts and ideas and wishes because that extends to what you were, what you are and what you have planned for the near future. **You are perfect. That is a fact.**

Now, I, Thor, am going to allow you information about something that is not perfect in anyone's eyes and that is the aspect of how the earth has been abused for many, many years. In order to upgrade from the abusive situation, **the earth has increased its positive presence to others and eliminated the negative aspects of abuse**. Sometimes it will not feel or look like that is happening because as the old and neglected and abusive aspects are being noted, the people of the world are doing the same. Anything that is negative or hidden or nasty is coming to the forefront of the information flow in the world itself. That is a fact.

So we have two faces – **the earth is changing for the better and now the people have the opportunity to do the same thing**. It seems like a chore, or a war within yourself – do I want to be better off by knowing more about myself, or do I just want to continue in my being on the earth and allowing whatever happens to me to happen? Quite a question of course. But it is that timing. Go forward with my perfect being and find comfort within or continue in the realms of negativity and cursing myself along the way? Interesting phenonium in the world at this timing. Is anyone content? Probably not, but then again, maybe some are. Do you know why some are content and fairly comfortable at this timing? It is because they have found that they are accepting themselves and are pleased with their ability usage and they are working hand in hand with nature. That is all that it takes. You and your attachment to nature. That is also a fact.

Now, it would appear that what is taking place these days in the news of the world sounds rather Monstrous. Would you not agree? What is happening that such monstrous conditions can take place and not much is happening to combat it? Well, it is because everyone is doing what they need to do for themselves and eventually you will discover that if you do for yourself as well, all will settle down. **Big changes on earth, big changes in governments, big changes in financial contributions to the world and big changes in each and every person on earth at this timing**. From those just born, to those close to dying. All people are being affected in one way or another, and you might just call that monstrous too, but it is a change that is required. The challenges with the earth have stemmed from the people in the world and their disrespect or lack of gratitude to nature

and thus the water systems, the land you walk upon and the air you breathe have all been corrupted. Thank you indeed.

The way out of all these changes in the world, is to change yourself. Change from critiquing yourself to looking upon you as being perfect for what education you required so far in your life. You are perfect and it is important to make certain you recognize that in your thoughts, words and actions. **As your thoughts come to you now, allow them to be put into action and your changes will take place,** so you begin to feel perfect as well. Each thought that you implement will release an emotion that you have hidden and so the change within you will take place. Acceptance of your thoughts and implementing them will rid of the encumbrances you have experienced in this life, and the light will begin to shine upon the abilities and joyous parts of yourself.

Thank you and good day.
