

PARAMOUNT

I, Thor, the Ultra Energy of the Universal All That Is, am with you on this day and in this mode of communication in order to bring you news about yourself, news about the earth and perhaps news about what surrounds you, in your protective urges for the savings of the planet called earth.

Now, that is quite an introduction to the information flow for today. Thank you indeed. You have the basics of information about what is happening with the earth. **The earth is rotating quicker now** than last year or the year prior to that. It is doing so to raise the vibrational rate of the earth itself. It has produced many forms of cleansing of itself by doing so. **What you might think of as a disaster but is a special cleaning of negative energies.** They were quite profound at the time of the increases. That means that the earth is created for your learning and it is in a state of duality. That means a basis of opposites. That is the same as duality, but different in energy aspects actually. Positive is one side of any possibility and negative is the opposite. The opposites are similar but not in any extreme mode and have never been. Up and down are opposites. In and out are opposites. That is a fact. However, the positive and negative aspects take into account the thoughts of all on earth that will state unequivocally that their ideas are one or the other, but someone else is able to state the opposite. Therefore, the earth is making certain that you are understanding the variances. **Opposites are always on earth, and the negatives and positives keep altering with one another.** Have you noticed that in your governmental elections? One election will have one party being elected and another will do the opposite because it has to do with people's opinions and people's intentions and vast differences in thinking what is important for the country and what is not. That is another fact.

So, what we have to learn on this day is the concept of notification of change in a form of **paramount interest and intensity**. What is the opposite of paramount do you think? Paramount means it is important and is there an opposite to important besides using the same word but adding a few letters? Well, of course the earth's changes are paramount within your changes. In other words, you cannot have one without the other. Opposites are variant from what they are not. Yes, of course they are. BUT, when the earth changes, it means everything on earth changes. What is everything? All That is on earth, whether people, creatures, forms of trees and plants and flowers, buildings and streets and many other aspects of life that you take for granted, like the lakes and oceans, the sky with the sun and the moon, and the winds and clouds and the aspects of rain and snow. All changes because the earth has done so. What does that mean to you? It means **you need to pay attention to your own changes and everything that surrounds you**. Allow yourself to let go of the old and expose it so it can be re-energized into something better. Is the old negative and is the new positive, or are they just opposites? You have old emotions that once were thoughts and words and actions that produced feelings that were not finalized.

Those emotions are part of the positive when originally alive and now they are negative as they are stored. Once again, not opposites because they are able to change from one side to another. Your changes are paramount to you and maybe not to anyone else at all. But let your thoughts rid of what you no longer desire. Now is the timing for you to feel it has paramount reactions by you on this day.

Thank you indeed and good day.
