POLITE

I, Mother Nature, am with you on this day and in this mode of communication to bring forth a word of interest at this timing in **discovering more of Who you are these days**. You know who you are physically I imagine, in that you have a body and certain colour in your hair and eyes, and you have a name that you recognize as yourself. Sometimes you like your name and sometimes you do not, but it is yours according to the government at this timing. I understand you are able to change your name as you please for every day of your living, but the name with the government is the official one. Thank you indeed.

Now, that statement is not new, nor are you to imagine it is. I just want to point out to you, that **your name is able to be altered considerably as you learn more about yourself**. Your legal and abiding name represents you physically, mentally and emotionally. These first three bodies go together. Everyone knows about emotions, do they not? But **rarely does anyone discover your thoughts or mental body**. That is a fact.

You have a fourth body that is entitled 'spiritual'. **Spiritual bodies are the thoughts and connections you have to yourself and your energy connections**. Energy connection means how you are the one that is able to relate to and accept a connection to the energy world that has provided you with everything you require on earth. In other words, your desire to be with water and accept its energy to increase yours, just by walking along the beach or going into salt water. It is the idea that by going swimming in clear water, you feel refreshed. When you gaze at the moon coming in or going, you relate to its calmness and ability to change. When you like the feeling of the rain as it promotes growth of all of nature's trees, flowers and plants. It is when you appreciate the sun and definitely know how to respect it and its powers, it is a gift to your feeling of freedom. So, **nature is created on earth with definite benefits, and it is the respect you provide it, that indicates whether it is a negative or positive addition to your life.**

The other three bodies are very seldom considered as a body within you, but sexuality is a body, as is financial. They are both in the negative on earth at this timing and you and others might feel that they dominate in every way of life. However, the seventh body is Universal and that is the connection to the universal energy that provides you with your very breath, with your dates of conception, birth and death. Very important indeed. It also assists you with your storyline as to how you live and breathe on earth at this timing. Your **universal body is assisting you to change the climate, we will entitle it, of your sexual and financial bodies.** They work in conjunction with one another because of your storyline and what you want to learn and experience on earth. Now that description is a POLITE mode of communication. It is polite to state that you are who you are because of how you view your sexual and financial bodies in the world at this timing. Thank you indeed and good day.
